**"Downland" Magazine**

. . . "Summer in Birdland," by Arthur Sharp, is excellently written, and another article which makes pleasant reading is that by Victor B. Neuburg, entitled "Soil and Sea." The magazine, which is the official organ of the Brighton and Hove Branch of the Wireless League, contains many other informative and interesting contributions, while there are also gardening and poultry notes and advice on books to buy. "Downland" is sold at threepence, and it is published by Mr. Frank Moore, of Eastfield, Bramber Avenue, Peacehaven.
