

MOONCHILD A MAGICKAL NOVEL BY ALEISTER CROWLEY

*This entrancing story, by one of the most mysterious and brilliant of living writers, describes the magickal operation by which a spirit of the moon was invoked into the being of an expectant mother despite the machinations of the Black Lodge of rival magicians. Exciting plots and counter-plots lead up to the Great Experiment, which takes place in a certain "Abbey" in Sicily. Flashes of humour and invective, passages of romance and serene poetic exaltation, a lucid narrative style, and an astonishing ending make this novel really memorable. Aleister Crowley's first novel, The Diary of a Drug Fiend, was withdrawn from circulation after an attack in the sensational Press.*
