

# THE EQUINOX

A HALF-YEARLY REVIEW OF SCIENTIFIC ILLUMINISM

---

*Subscribers: Ten shillings yearly.*

*A limited edition on superior paper with special binding,  
two guineas yearly.*

---

This Review has been founded :

- (a) As the Official Organ of the A.·. A.·.
- (b) For publication—
  - (1) of researches on scientific lines into the nature and powers of the human mind ;
  - (2) of stories, poems, drawings, whereby, through the medium of art, those truths which are as yet too subtle for scientific analysis may be made known ;
  - (3) of the knowledge of methods of research, higher and lower ;
  - (4) of any other literature or art which may be considered suitable.

---

The A.·. A.·. consists of a number of persons who have Themselves attained that condition which has been variously described as "saintship," "Mahatmaship," "mastership," "adeptship," and so on, according to the accidents of time and place.

They consider that the time is now come for a more general diffusion of Their own knowledge, and have founded *The Equinox* as one means to that end. They wish to discover suitable pupils for special training.

Such pupils must be prepared to work on strictly scientific lines. Prejudice and dogma must be laid aside. The Brothers of the A.·. A.·. do not ask for faith : They insist on each pupil making his own experiments critically, and that he should never believe or assert that which he does not himself certainly know. The Brothers do not attach Themselves to any external system, though They are in essential harmony with all living systems, by reason that Truth, even when it appears to be buried beneath the greatest errors, is the life of all that lives.

As a registered subscriber to *The Equinox*, you will have an opportunity, should you desire it, of being examined by the A.·. A.·. as to your fitness for instruction and assistance in your search for Truth.

---

The Review will appear on or about the 21st of March and the 21st of September in each year.

Each of the more important articles will be paged separately with their titles, so that they may be bound up by themselves if so desired. A few copies of each will so be bound up by the publishers, and may be obtained in that form at prices to be duly advertised.

*The Equinox* will be printed in Crown Quarto, and each number will be of about 100,000 words. Some of the articles will be illustrated in colours.
