

ALCHEMY, ANCIENT AND MODERN. By H. STANLEY REDGRAVE.
[Publisher and price information omitted]

A most admirable treatise on the little-understood and misunderstood science of Alchemy. More, the only treatise. Clarity and good sense mark every line. A book entirely essential to anyone who wishes to study the subject, and to understand, (1) how the alchemists conceived of hierarchical monism, (2) how they preserved mysticism, (3) how they made chemistry possible.

The book is a complete refutation alike of the Pooh-Pooh and the Holy Timmie schools of critics.

LEO VIRIDIS.
